

2022

MASTER THE ART OF HEALING

TBM INTENSIVE SERIES

WHAT IS TOTAL BODY MODIFICATION (TBM)?

PARTICIPATION POLICIES

- This intensive series events is **only for career health professionals** or actively studying to become such. A college-level background in human physiology and anatomy is also required.
- Registrants must arrive on time and **attend each hour of the course to receive credit** for attending. Any exception must be approved prior to registration by the TBM home office.
- Each registrant is required to **sign our Event Participant Agreement prior to attendance**. In doing so attendees mutually agree to adhere to copyright restrictions and that no practitioner/client or doctor/patient relationship is formed as a result of the event. A copy of the document may be found in Free Resources.

FINANCIAL POLICIES

- All TBM event registration fees are **non-refundable and non-transferable**. If an event is missed a token towards registration for future events will be issued.
- **Travel plans change-fees** reimbursement due to rescheduling or cancellation of an event are only extended to those with confirmed registrations.
- **Qualifying for reduced rate** fees requires documentation and is strictly limited to those repeating an identical event (refreshers), full-time students, faculty members, recent graduates (12 months or less), and medical residents of an accredited health care degree-granting institution.

BECOMING A CERTIFIED PRACTITIONER

While each level of certification has unique requirements there are three main ones. First, a student must view, either in-person or online, **each course two times**. Second, the student must **complete the homework** associated with that particular assignment and demonstrate proficiency. Third, the student must **apply for certification**. The application is then reviewed by a certified TBM instructor who determines if the requirements have been met. Presently there are 7 sub-certifications which lead to the **Master Healer certification**. **For more information download our Master the Art of Healing Certification Packet in Free Resources** at www.livetbm.com.

REGISTRATION BUNDLE OPTIONS

We offer the biggest incentives to those who bundle our products along with registration. TBM students who acquire the implementation tools to go along with the learning are more likely to become proficient. During registration you have the option to bundle the entire library of TBM learning and attunement tools. We call this our **Master the Art of Healing package**. This option is for those who have already chosen into mastering the entire TBM system of healing. It provides all of the TBM tools needed to both learn and apply TBM at a **savings of over \$10,000**. You may also select smaller packages or simply register for the intensive courses on their own. At a minimum we recommend bundling the **Master Starter Kit**. It includes the **Starter Kits, Menu Charts**, and a complete set of **full-color manuals**. For more information visit www.liveTBM.com.

HOW TO REGISTER

As all registrations are processed on our website, the first step is to **create a practitioner account** at www.liveTBM.com. This not only allows you to register for events but allows you to purchase scores of dietary supplements and other items at wholesale prices. Once you are logged into your account, select **Seminars**, then **Las Vegas**. Next click on the course(s) desired and you will be taken to a registration page. Once you have selected the bundling options you desire click **Add to Cart**. You may then go to your **Shopping Cart** and complete the checkout process. Feel free to call us with any questions you may have during registration. If you prefer, you may also phone us and we'll complete the process for you.

QUESTIONS AND SUPPORT

Feel free to contact us with any questions or needs for support that you may have. Our email is health@tbmseminars.com and our phone number is **+1 (435) 652-4340**. In the meantime, take a few minutes to familiarize yourself with our website, www.liveTBM.com. It contains a wealth of information about TBM and our product offerings.

MEET YOUR INSTRUCTORS

Dr. Kevin S. Millet
Chiropractor

Learning disabled and experiencing serious health problems by the age of 12, Dr. Kevin Millet read John Yudkin's Sweet and Dangerous and immediately cut refined sugars out of his diet. Noticing an immediate improvement in his mental function and overall health the young Kevin wrote a paper based on Dr. Yudkin's book and was publicly derided by the professors in the science department at his school. This steeled his resolve to take responsibility for his own health and learning. He soon discovered the profound difference between truly healing versus masking symptoms. He has been an outspoken advocate for healthy living since his early teens and likes to brag that he has been drug-free, including over-the-counter medicines and recreational drugs, since 1984.

Dr. Millet interned in the office of Dr. Victor Frank while a student at Cleveland Chiropractic College. He received impressive results at the time with TBM and was eager to study the system but was told by Dr. Frank to wait until he was in practice. Dr. Millet took Dr. Frank on as his mentor in 2001 and began teaching in 2003. Victor and his wife Diane selected Dr. Millet to carry on the lineage of TBM in 2009. Since then Dr. Millet has added a considerable amount of material, both his own and from others. He also systematized the learning and application process to allow developing a mastery level of proficiency in TBM possible with a matter of months.

Dr. Millet draws from his vast knowledge of human physiology, biomedicine, and Western subtle-influence medicine when he teaches. He also brings a highly developed intuition and a deep commitment for all to be given the opportunity to truly heal.

Dr. Millet will be team-teaching with other Certified TBM instructors and instructors-in-training. See the specific intensive listing at www.livetbm.com for updates on teaching personnel.

TBM's complete endocrine, immunological, and cardiovascular renewal program.

OUR FOUNDER EMPHASIZED THE NEED FOR "THE BASICS"

Dr. Victor Frank loved receiving phone calls from TBM practitioners to discuss cases. Practitioners from around the world capitalized on this opportunity. Whenever someone would call, they were always asked this question first, "Did you do The Basics?" Dr. Frank taught students that they could guarantee results in TBM if they did The Basics first. He also taught that the sicker a person is the more they needed The Basics.

WHAT ARE THE BASICS & WHY ARE THEY SO IMPORTANT?

The Basics is what the body requires to restore its ability to self-regulate. The Basics lay the foundation for homeostasis in the presence of normal daily stress. Self-regulation and homeostasis result in resilience in the body. Without this foundation, healing progress is challenging and generally short-lived. The more ailments a person has, the more the body has lost its self-regulation and resilience.

The changes required to reestablish self-regulation and homeostasis are The Basics. There are 2 categories: practitioner corrections and lifestyle modification. Neither are enough on their own. It is only through implementation of both that we reestablish self-regulation and homeostasis.

COURSE AIMS

In Foundations of Healing we teach the techniques required to restore a body to self-regulation and homeostasis. Sound like a tall order? It is. Over four decades, TBM has developed a training method that achieves this lofty aim. Using demonstration and workshoping, we teach each test and correction of The Basics. We also teach the lifestyle modifications and how to get clients to make the changes. Our aim for the course is that every attendee understand how to implement the TBM Basics.

NOTES: This course contains information found in PA (Module 1), SE (Module 2), PB (Module 4), AA (Art of Adjusting), and MV (Module V) Course Notes and 40th Anniversary Manuals. This course counts as a single-qualifying attendance towards BA, AA and partial for BE and BP certification.

ENERGY AND EMOTION

12 - 19
APRIL
2022

TBM's comprehensive emotional clearing, energetic restoration, and life coaching program.

THE BODY WEEPS THE TEARS THE EYES REFUSE TO SHED

Dr. Victor Frank often mentioned the proverb that our bodies weep the tears that our eyes refused to shed. In fact, many physical ailments are the result of lingering emotional wounds. Dr. Frank, and many others in TBM, went to work developing ways to resolve this. They created efficient techniques to address all aspects of this issue. As a result, in TBM we have techniques to correct physical issues caused by emotional wounds. We have techniques to heal the emotional wounds themselves. Finally, we have techniques to decrease the likelihood of new emotional wounds occurring. These earlier techniques include TBM's Emotional Erases and the emotional Program vials.

NO ONE DESERVES TO LIVE AS A FRACTURED SOUL

Dr. Kevin Millet applied these earlier emotional techniques in his practice to great effect. Despite this, he encountered clients for whom these techniques fell short. Some clients felt that they were fatally flawed. As a result, they were unable to experience joy, success, love, and peace of mind. These clients considered themselves unworthy, evil, worthless, stupid, a loser, and the like. Dr. Millet looked to his studies and experiences to find a solution for these clients. He developed new techniques to get to these deep-seated fears and beliefs and remove them. These techniques include an initial profound correction and follow-up support. They enable the client to navigate towards their brightest hope and highest values. Dr. Millet called this collection of techniques Core Antidote.

SUBTLE ENERGIES

Most of us take our body's ability to collect and manage energy for granted. Yet many individuals experience fatigue and sleep disruptions. Many have a need for coffee or another caffeinated beverage to fully 'wake up.' The need to consume calories is obvious to everyone, but there are other important energy sources that are often overlooked. These energy sources are more subtle but they are every bit as important. Early on, Dr. Frank developed some techniques to restore the ability to draw energy from the earth. Over time, others have developed techniques to draw energy from the cosmos as well.

NOTES: This course contains information found in the PA (Mod1), SE (Mod2), PB (Mod4), MV (Module V) and CE (Mod5) Course Notes and 40th Anniversary Manuals. This course counts as a single-qualifying attendance towards CA and a partial for BE and BP certification.

COURSE MATERIAL

Here are the contents of the Foundations of Healing intensive:

- Basic Energetical Exam: Re-establishing the body's ability to draw energy from both the earth and the cosmos
- Fractured Crucible: Reestablishing a person's capacity to strengthen their electromagnetic fields
- Core Essence/Protection: Strengthening the body's electromagnetic fields and establishing an auric shield
- Autonomic Recovery Program: Lifestyle implementation program to support restoration of self-regulation and resilience
- Surface Anatomy: Locating TBM landmarks to do TBM with precision
- Basic Physiological Exam: Over 100 tests and corrections of basic body functions
- Basic Structural Exam: Restoring global harmony/alignment of the axial skeleton (cranium, thorax, pelvis)
- Basic Allergical Exam: Eliminating the majority of food and environmental sensitivities
- Basic Emotional Exam: Foundational emotional corrections to release basic body functions from chronic emotional patterns
- Basic Learning (Neurological) Exam: Restoring cognition and expression
- Basic Immunological Exam: Activating immune responsiveness to pathogens
- Need & Use: Targeted neurosensory evaluation of foundational nutritional deficiencies
- Additional Body Points: 68 additional tests and corrections.
- Structural Integrity (or Harmony): Assessment of global and segmental structure and the process of structural attunement
- Menuing: Charting the path from the symptom to the correction Core Essence/Protection. Internal energetic clearing, increasing bioenergy, establishing adequate bioshielding

INNOVATION CONTINUES

In this intensive we will teach the early techniques of Dr. Frank and his contemporaries. We will also teach Dr. Millet's Core Antidote. But the innovation continues as we strive for increased efficiency and effectiveness. To that end, we will also teach some of the newer techniques that have developed in recent years.

COURSE AIMS

In Energy and Emotion we teach techniques to assess and address the energetical and emotional status of your client. Furthermore we teach TBM's Core Essence Coaching program. Our aim for the course is that every attendee increase their effectiveness as a healer and gain confidence as a life coach. We aim to teach each attendee how to catalyze transformations in the lives of their clients.

COURSE MATERIAL

Here are some of the contents of the Energy and Emotion intensive:

- Core Essence/Protection: Internal energetic clearing, increasing bioenergy, establishing adequate bioshielding
- Selected TBM Body Points: Learning the points that are needed to conduct the techniques that follow.
- TBM Program vial sequence: Learning how to use a TBM Program vial.
- Comprehensive Energy Efficiency Exam: Assessing and reestablishing whole body optimal ATP metabolism
- Comprehensive Energetical Exam: Circadian patterns, energetic channels, restorative sleep, electromagnetic hygiene, bioshielding, and personal interaction empowerment techniques
- Comprehensive Emotional Exam: Emotional Erases, Emotional Programmed Sequences, emotional Program vials, emotional states
- Core Antidote: Determining a client's deepest fear and brightest hope, aligning core beliefs to brightest hope, anchoring of optimal core beliefs
- Core Essence Coaching: A coaching system of techniques and concepts to neutralize personal emotional and intellectual obstacles to a productive, prosperous, and joyful life

Comprehensive Detoxification, Endocrine, & Adv. Techniques

WHAT IS PATHOPHYSIOLOGY?

Pathophysiology is 'the abnormal physiological process associated with disease or injury.' It can occur in healthy or diseased tissue. As a subtle-influence medicine system of healing, TBM doesn't deal with diseased tissue. It doesn't even deal directly with pathophysiology. Instead, TBM directs its healing efforts towards the dysfunctional processes beneath the disease. We call these biodissonant patterns.

Every disease, chronic and acute, has its origin, or perpetuating factor, in a biodissonant pattern. This means that every disease also has a correction at that level. TBM corrections act on these biodissonant patterns. This may or may not have an indirect influence on the actual disease process. But, it always improves well-being and better enables the client to function in their life.

DO I HAVE TO BE A DOCTOR?

In TBM we neither diagnose nor treat disease. As a result, practitioners of TBM do not need a license (MD, DC, ND, etc.) to practice. We recognize that certain circumstances warrant the treatment of disease. In these cases, referral to a licensed practitioner is appropriate. But, we find that the need to refer is less than expected. Experience shows us that tending to the biodissonant patterns generally has the desired outcomes.

BACKWARD THINKING: 'ANYTHING CAN CAUSE/CURE ANYTHING'

Dr. Victor Frank often said, "Anything can cause anything and anything can cure anything." This understanding reveals the need for a new approach to healthcare. Dr. Frank developed a method to navigate from symptoms and signs to 'cause' and 'cure.' He called the process Backward Thinking. Backward Thinking is used to detect which biodissonant patterns relate to a specific symptom or sign.

Backward Thinking has similarities to the process of differential diagnosis. Both processes examine symptoms and signs. Both processes consider the physiology that relates to the clinical picture. At this point the similarity ends. The goal of differential diagnosis is to diagnose a disease. In turn, the diagnosis indicates the intervention. Essentially, one diagnosis equals one intervention. In contrast, Backward Thinking aims to first locate the biodissonance. Next the process detects the TBM techniques that will neutralize the biodissonance. The correction releases the pathophysiologic processes and the symptom or sign often resolves. Backward Thinking allows for the idea that anything can cause or cure anything to be applied effectively and efficiently.

BECOME ADEPT AND EFFICIENT WITH TBM

Backward Thinking is a significant process in the development of a TBM practitioner. Those who learn this process take an important step toward mastery of TBM. Practitioners who Backward Think are able to quickly and efficiently address the needs of their clients. In fact, the resolution of 5 to 10 signs and symptoms in one 15 minute session becomes possible.

COURSE AIMS

In the Pathophysiological intensive we teach how to recognize and correct biodissonances. We teach techniques for clients who have developed chronic, severe, disabling, or life-threatening pathophysiologic processes. Furthermore, we teach how to do all of this safely, quickly, and effectively.

COURSE MATERIAL

Here are some of the contents of the Pathophysiological intensive:

- Backward Thinking and advanced Menuing
- Pathophysiological processes including:
 - Viral, bacterial, fungal and parasitic infections
 - Degenerative conditions (e.g. lupus, multiple sclerosis, fibromyalgia, chronic fatigue)
 - Immunologic breakdown (e.g. cancer, AIDS)
 - Neurodegeneration (Parkinson's, Alzheimer's)
 - Cardiovascular degenerative issues (e.g. erectile dysfunction, cardiac insufficiency, cardiac rhythmic abnormalities)
 - Toxic metals, medications, & environmental chemicals
 - Adverse vaccine sequelae
 - Cholecystic, hepatic & renal lithiases (stones)
 - Non-restorative sleep
 - Medication-dependent diabetes
 - Fat-mass reduction toxicity

NOTES: This course contains information found in the PC (Module 3), MV (Module V), and PB (Module 4) Course Notes and 40th Anniversary Manuals. This course counts as a single-qualifying attendance towards PC and a partial attendance towards BP certification.

PROFOUND ORIGINS OF TOTAL BODY MODIFICATION

22 - 25
SEPTEMBER
2022

The lineage of Western subtle-influence medicine.

STANDING ON THE SHOULDERS OF GIANTS

In 1675 Sir Isaac Newton wrote to his fellow Royal Society member Robert Hooke, "If I have seen further it is by standing on the shoulders of Giants." We all want to "see" further, but it can be challenging to know where to begin. The Profound Origins of Total Body Modification intensive is an immersion into the people and techniques upon which TBM "stands."

BET TRANSFORMED THROUGH INSPIRING MAGNIFICENCE

In Buddhism, establishing a connection with a particular knowledge-lineage is highly prized. They believe that doing so confers the blessings of those who have gone before. There are two Tibetan words that describe the process of establishing a connection. Byin-rlabs means 'to be transformed through inspiring magnificence.' Jinlap means 'an engulfing wave or flood of splendor and power.' It has been our experience that delving into the rich knowledge-lineage of TBM results in just that!

NO HEALING INNOVATION EVER BECOME OBSOLETE

All too often humans abandon the "old" for the "new." As healing technologies advance, newer techniques may be more efficient than previous ones. It makes sense to adopt these newer, more efficient techniques for general use. But it is a mistake to discard the previous techniques altogether. While new innovations may dramatically lessen their frequency, previous methods never become obsolete. Furthermore, these methods may be necessary for the healing of certain clients. Dr. Frank always encouraged his students to learn every technique they could. He'd say, "You never know when you will need them." Dr. Kevin Millet has spent years studying healers and the techniques they contributed to our lineage. In the Profound Origins of Total Body Modification we present the best-of-the-best of these individuals and their work.

COURSE AIMS

In Profound Origins of Total Body Modification intensive, we aim to open the door to mastery of TBM. We teach how to produce Harmonization and Program vials. We teach many older healing techniques from those in our lineage. We provide the background of how TBM came to be. Included is a tour of TBM's vial production facility, museum, and library.

COURSE MATERIAL

Here are the some of the contents of the Profound Origins of Total Body Modification intensive:

- Franz Anton Mesmer's **Magnetic Healing**
- Marquis de Puységur's **Artificial Somnambulism**
- Abbe de Faria's **Lucid Sleep**
- James Braid's **Neurypnology or "hypnosis"**
- John Elliotson's **Magnetic Anesthesia**
- Albert Abrams **Electronic Reactions of Abrams or "Radionics"**
- Emile Coué's **Conscious Autosuggestion**
- L. Ron Hubbard's **Dianetic Reverie**
- Jose Silva's **Mind Control**
- Werner Erhard's **Integrity Tone Scale**
- Victor Frank's **Harmonization**
- Brian Bateman's **Remedy Drawing**
- Randy Franks's **Program Vial Production**

NOTES: This course contains information found in the SI (Module M) and MV (Module V) Course Notes and 40th Anniversary Manuals. This course counts as a single-qualifying attendance towards SIM and MV certifications.

PLEASE READ THE FOLLOWING PRIOR TO REGISTERING

PARTICIPATION POLICIES

- This intensive series events is **only for career health professionals** or actively studying to become such. A college-level background in human physiology and anatomy is also required.
- Registrants must arrive on time and **attend each hour of the course to receive credit** for attending. Any exception must be approved prior to registration by the TBM home office.
- Each registrant is required to **sign our Event Participant Agreement prior to attendance**. In doing so attendees mutually agree to adhere to copyright restrictions and that no practitioner/client or doctor/patient relationship is formed as a result of the event. A copy of the document may be found in Free Resources.

FINANCIAL POLICIES

- All TBM event registration fees are **non-refundable and non-transferable**. If an event is missed a token towards registration for future events will be issued.
- **Travel plans change-fees** reimbursement due to rescheduling or cancellation of an event are only extended to those with confirmed registrations.
- **Qualifying for reduced rate** fees requires documentation and is strictly limited to those repeating an identical event (refreshers), full-time students, faculty members, recent graduates (12 months or less), and medical residents of an accredited health care degree-granting institution.

BECOMING A CERTIFIED PRACTITIONER

While each level of certification has unique requirements there are three main ones. First, a student must view, either in-person or online, **each course two times**. Second, the student must **complete the homework** associated with that particular assignment and demonstrate proficiency. Third, the student must **apply for certification**. The application is then reviewed by a certified TBM instructor who determines if the requirements have been met. Presently there are 7 sub-certifications which lead to the **Master Healer certification**. **For more information download our Master the Art of Healing Certification Packet in Free Resources at www.liveTBM.com.**

REGISTRATION BUNDLE OPTIONS

We offer the biggest incentives to those who bundle our products along with registration. TBM students who acquire the implementation tools to go along with the learning are much likely to become proficient. During registration you have the option to bundle the entire library of TBM learning and attunement tools. We call this our **Master the Art of Healing package**. This option is for those who have already chosen into mastering the entire TBM system of healing. It provides all of the TBM tools needed to both learn and apply TBM at a **savings of over \$10,000**. You may also select smaller packages or simply register for the intensive courses on their own. At a minimum we recommend bundling the **Master Starter Kit**. It includes the **Starter Kits, Menu Charts**, and a complete set of **full-color manuals**. For more information visit www.liveTBM.com.

HOW TO REGISTER

As all registrations are processed on our website, the first step is to **create a practitioner account at www.liveTBM.com**. This not only allows you to register for events but allows you to purchase scores of dietary supplements and other items at wholesale prices. Once you are logged into your account, select **Seminars**, then **Las Vegas**. Next click on the course(s) desired and you will be taken to a registration page. Once you have selected the bundling options you desire click **Add to Cart**. You may then go to your **Shopping Cart** and complete the checkout process. Feel free to call us with any questions you may have during registration. If you prefer, you may also phone us and we'll complete the process for you.

QUESTIONS AND SUPPORT

Feel free to contact us with any questions or needs for support that you may have. Our email is health@tbmseminars.com and our phone number is **+1 (435) 652-4340**. In the meantime, take a few minutes to familiarize yourself with our website, www.liveTBM.com. It contains a wealth of information about TBM and our product offerings.

COURSE SCHEDULE

1st day 12-6pm
Middle 9am-6pm
Last 9am-1pm

PRICING FOR ENTIRE SERIES

Standard \$5920 USD / Reduced* \$3600 USD

INDIVIDUAL INTENSIVES

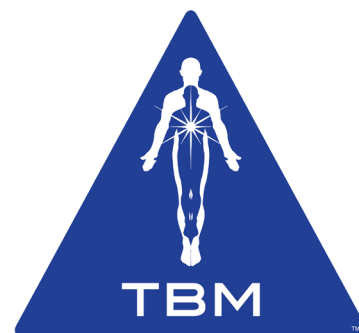

Standard: 6 Day \$2042 and 4 Day \$1,264 USD Each
Reduced*: 6 Day \$1,342 and 4 Day \$831 USD Each
Register 8 weeks in advance and **SAVE \$75**

SEMINAR LOCATION

Online or In-person in the TBM Studio at the Home of Dr. Millet in Las Vegas, Nevada. The address will be emailed upon completion of registration.
